

Teesta Low Dam-III is situated across the Teesta River (length of the river from the Bangladesh border to its tentative origin is 257.9 kilometres)

Established: The hydropower plant has been operating since 2013

Lat: 27° 0'6.88"N

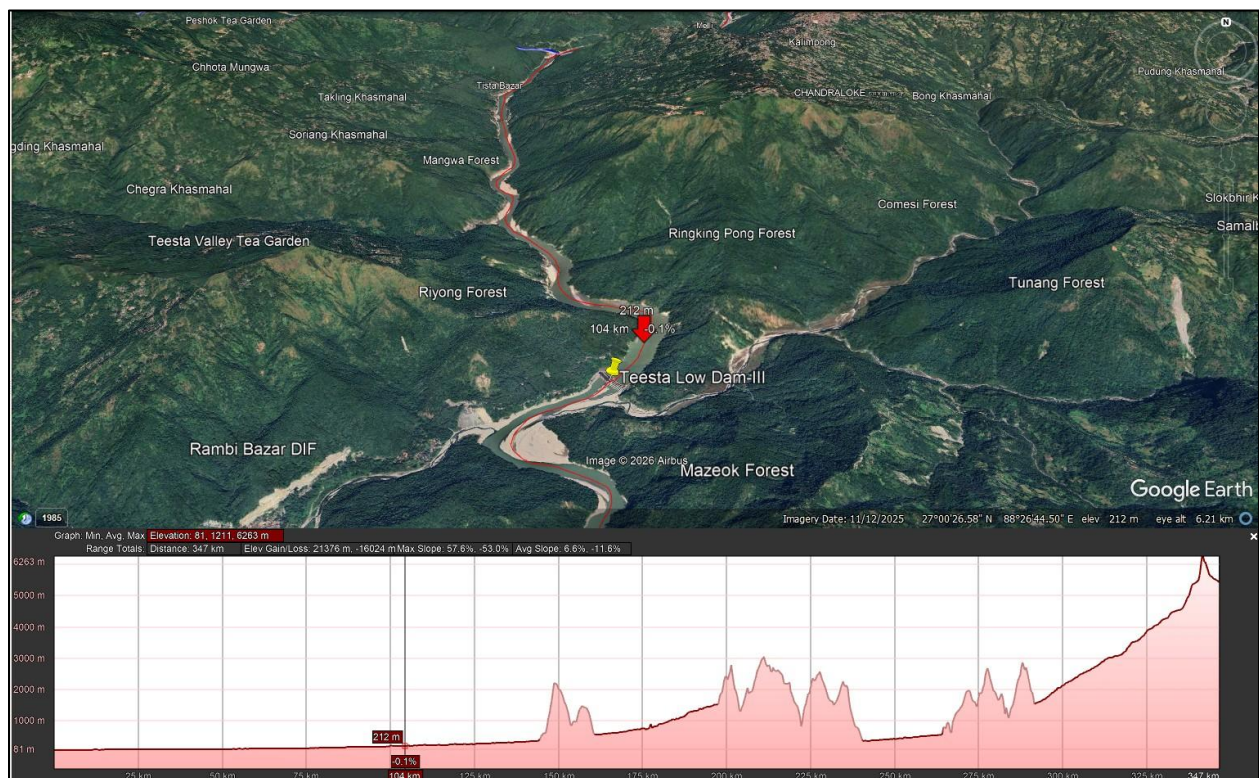

Long: 88°26'33.47"E

Length of the Dam (metres): 309

Elevation (metres): 208

Length from Bangladesh border (kilometres): 103.8

Note: The broken appearance of the elevation profile results from combining multiple line segments with differing directions and elevation ranges, rather than from any real discontinuity in the terrain.
