

Teesta Low Dam-IV is situated across the Teesta River (length of the river from the Bangladesh border to its tentative origin is 257.9 kilometres)

Established: The hydropower plant has been operating since 2016

Lat: 26°55'38.87"N

Long: 88°27'20.99"E

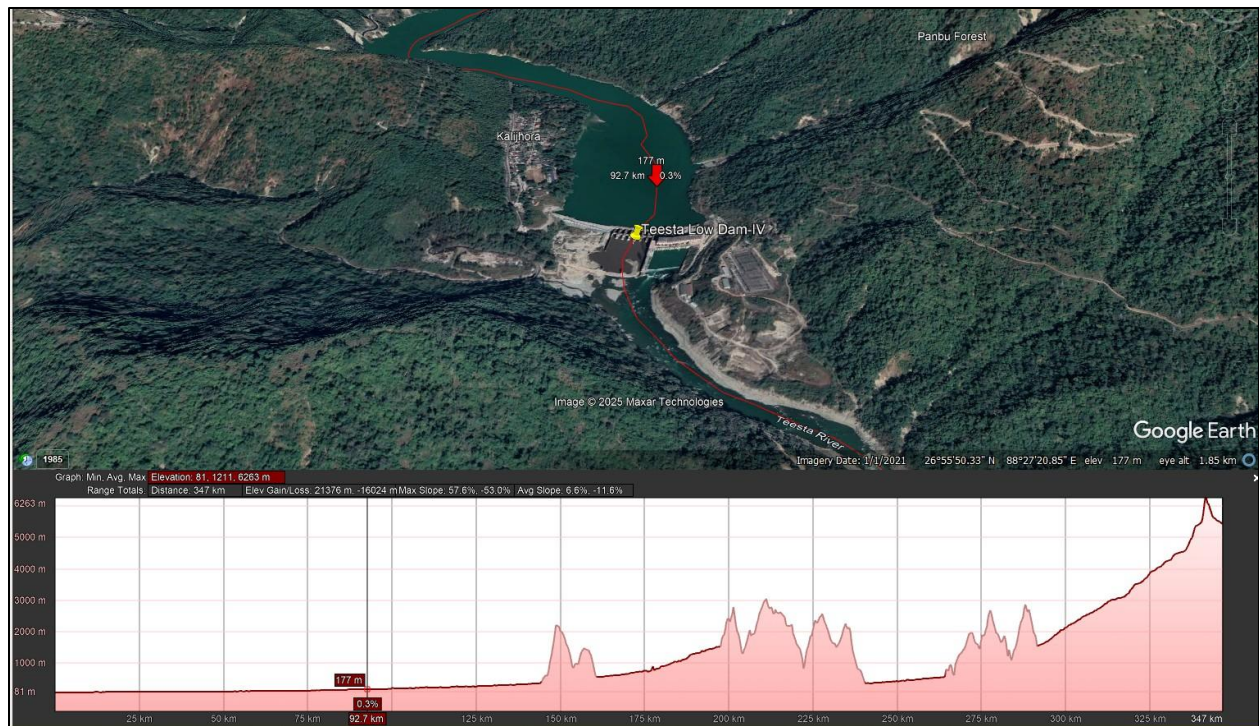

Length of the Dam (metres): 582

Elevation (metres): 177

Length from Bangladesh border (kilometres): 92.4

Note: The broken appearance of the elevation profile results from combining multiple line segments with differing directions and elevation ranges, rather than from any real discontinuity in the terrain.
