

Vishnuprayag Hydro-Electric Project-Dam is situated across the Alaknanda River, which is a headstream of the Ganges River (length of the river from the Bangladesh border to its tentative origin is 2100.1 kilometres)

Commissioned: The hydropower plant has been commissioned since 2006

Lat: 30°40'20.76"N

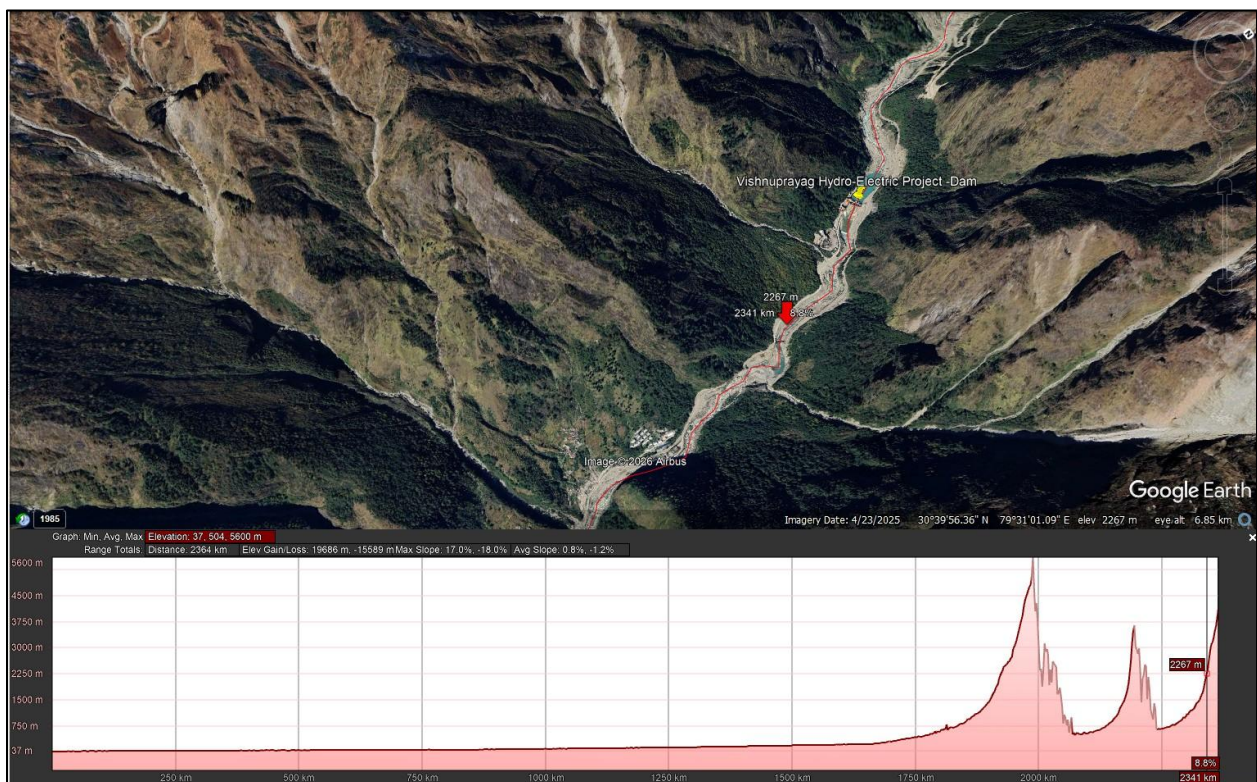

Long: 79°30'48.98"E

Length of the Dam (metres): 106

Elevation (metres): 2292

Length from Bangladesh border (kilometres): 2075.5

Note: The broken appearance of the elevation profile results from combining multiple line segments with differing directions and elevation ranges, rather than from any real discontinuity in the terrain.
