

Bhimgoda Barrage is situated across the Ganges River (length of the river from the Bangladesh border to its tentative origin is 2197 kilometres)

Established: Initially in 1854, and then it was replaced by a modern barrage in 1983

Lat: 29°57'22.78"N

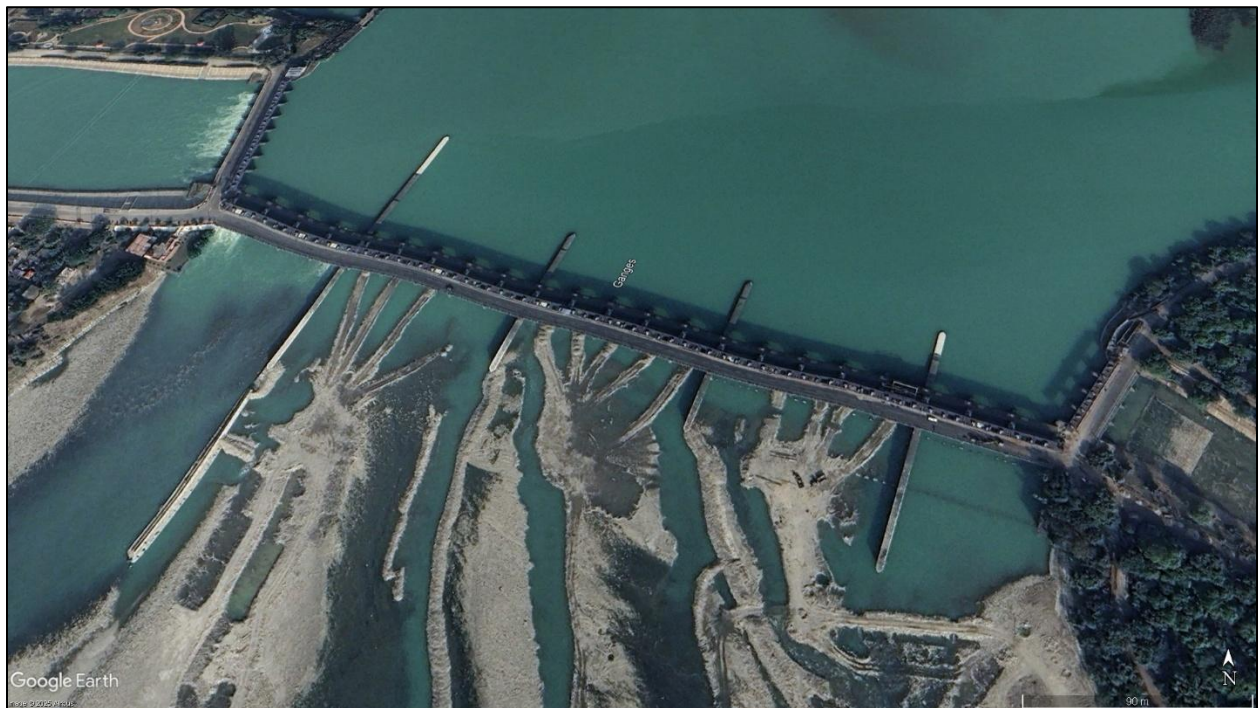

Long: 78°10'50.73"E

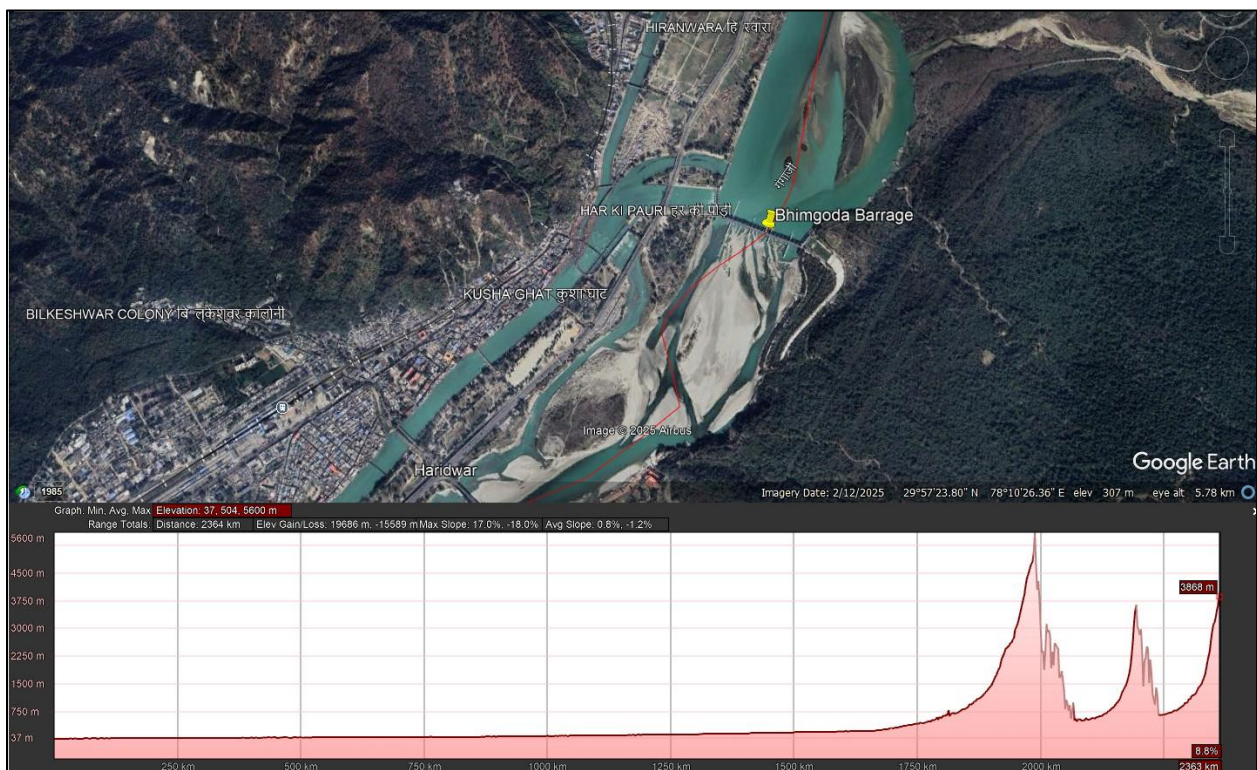

Length of the Barrage (metres): 472

Elevation (metres): 312

Length from Bangladesh border (kilometres): 1822.4

Inlet Water Diversion Canal: Both the Left Side Main Canal and the Right Side Main Canal

Note: The broken appearance of the elevation profile results from combining multiple line segments with differing directions and elevation ranges, rather than from any real discontinuity in the terrain.
